From the Principal

Celebrating Term 2

Term 2 has been very busy, with exciting and new learning opportunities for students and teachers. We have continued our priority for small group differentiated learning for students. Teachers have reported this year, that they are able to facilitate student learning precisely, through the formative learning systems that have been created.

The term was action packed with many excellent community events and unique learning opportunities. We:

- Recognised and remembered our ANZACs with an historical march and service.
- Enjoyed some unique Mother Day celebrations.
- Relished the opportunity of celebrating books and reading with our Book Fair and Book Character Parade.
- Smiled for our school photos taken which we expect to be returned sometime in Term 3.
- Grew our mathematical brains during Numeracy Week with many challenging lunchtime learning activities.
- Beat the weather with a well organised Sports Carnival. It was a great day of sportsmanship and community spirit. We had a wonderful turn out of families who enjoyed the entertainment and excellent food.
- Assisted our fitness and creativity with dancing at our school discos.

Upcoming Dates:

- Fri 26 June: Last Day of Term 2
- Mon 13 July: First Day of Term 3
- Fri 17 July: Choir Performance @ Palm Lake Resort
- Wed 29 July: Parent/Teacher Interviews
- Yr 5 & 6 Camp

*Recognised and remembered our ANZACs with an historical march and service.*
Students have returned home on Wednesday with their Semester 1 Achievement Reports. The reports are written to the student, so that they have ownership of what they have achieved and the goals that teachers would like them to focus on for Term 3. The best approach for parents, is to sit together with the report, so that it can be understood and explored.

Our Parent Teacher Interviews will be occurring in Term 3. This is a wonderful opportunity for parents to collaborate with teachers so that together we can assist every child to reach their potential. We have appreciated the support of parents across extensive events and activities throughout the term. Our partnership with parents and community members is a very high priority for us. We have so many parents that work as ‘problem solvers’ rather than ‘complainers’ to ensure that a genuine partnership occurs between home and school. This is the sign of a healthy community.

We have celebrated our many volunteers who support numerous projects and programs throughout the school. Breakfast Club continues every morning with a tribe of warm hearted, generous volunteers, facilitating a great start to the day for students through food and kindness. The Lunchtime Learning activities are continuing to grow with Calligraphy, Cooking Club, Knitting, Dance Club, Drama Club, Art Club, Drum Beat, Stylists Class and so much more. The visual will best illustrate the huge number of activities that students can participate in, as an addition to their classroom learning. Students are also participating in a number of workshops which are facilitated by community agencies across Prep to Year 6.
Students attending school every day on time is the best possible way for their academic success. Next term, we will commence a new rewards systems for students attending school every day in one week, along with the continuation of Classroom Gotchas, Playground Gotchas and Top of the Diamond celebrations. At the end of each week, students that have attended on time for a full day will receive an 'attendance token'. Students can save and spend the tokens on activities and opportunities as seen on the visual. Chat with your children to further understand how this works.

Term 2 has been a great term. We acknowledge our wonderful families and the children that keep us getting up every morning. Together they can continue to develop to be strong, clever, imaginative people, who want to lead, influence and contribute. We sincerely look forward to seeing everyone on Monday, 13th July at 8.50am.

Woolworths Earn & Learn 2015

Deputy’s Column

This year we will be participating in the Woolworths Earn & Learn program. Through this program we will be able to get new educational resources for our school/early learning centre – and all we need you to do is shop for your groceries at Woolworths.

From Wednesday 15th July to Tuesday 8th September, we are collecting Woolworths Earn & Learn Stickers. You will get one Woolworths Earn & Learn Sticker for every $10 spent (excluding liquor, tobacco and gift cards). Place the Woolworths Earn & Learn Sticker onto a Woolworths Earn & Learn Sticker Sheet and when it’s complete, the Sticker Sheet can be dropped into the Collection Box here at the school or at your local Woolworths. Sticker sheets are available at Woolworths or at the school office.

At the end of the promotion, we’ll be able to get some great new equipment. The range is extensive and offers lots of items ideal for our students – including resources for Maths, English, Science and some fantastic fun supplies for Arts & Craft, Sport and for our library. If you’d like to know more visit woolworths.com.au/earnandlearn

Thank you for supporting our school to earn as many educational resources we can.

Lara Smith – Deputy Principal

What are we learning at school?

Students in all grades explore many different concepts in Reading, Writing and Numeracy. Grouping concepts together, helps to create an experience or memory for the child, which in turn helps the child to build further understanding and links to other learned concepts.

At home, families can also reinforce learning by exploring activities together, which enhance the learning experience for your child. One way of doing this is by cooking. Cooking and baking brings many learning opportunities for the child. They are able to explore reading and understanding procedures with specific focus on language through identifying ingredients and equipment, looking at key action words (verbs) and following steps. In Numeracy, the children would be exploring measuring quantities using measuring cups or scales. They can also explore time duration by asking questions: What time did we put the cake in the oven? How long does the cake need to be in the oven for? What time will the cake be finished? Cooking provides a fun way of learning and spending time with each other.

Here are some great websites to find family friendly recipes:
http://www.superhealthykids.com/healthy-kids-recipes/

Try this delicious recipe:

**Super Yummy Strawberry Chia Fruit Leather**

5 cups strawberries
2 tablespoons white chia seeds

Preheat the oven to 200 degrees F. Line a baking sheet with a silpat or silicone mat. Wash and dry the strawberries. Remove the stems and roughly chop. Place into a blender and puree until smooth. Add the chia seeds and pulse to combine.

Pour the mixture onto the mat and use a spatula to spread evenly to about 1/4-inch thick. Make sure that the mixture does not get thinner at the edges since they will cook faster than the interior. You may need to work in batches depending on the size of your baking sheet and silpat.

Bake for 3-4 hours or until the mixture has dried completely. (Check it starting at 3 hours.) When done, cut with scissors into strips and store in a zip top plastic bag or an airtight container.

Store up to 1 month.

Read the recipe together, collect the ingredients, find out the equipment and then have some fun together in the kitchen!

This term, Aqua KW have been investigating living micro-organisms. In particular, we have been investigating the growth of mould on bread. The task was to identify the best environment for storing bread. Tenisha has written a short summary of the investigation task.

“This Term in science, Aqua KW has been learning about the mould growth and the best environments for it to grow in. We have done an experiment with three slices of bread for each of the five groups to determine which environment was the best. We then found that over the weekend mould was appearing. We decided that having this experiment, it would expand our knowledge on mould growth and environmental factors which promote this. We then discovered that there were little micro-organisms, which is a bacteria that helps the mould spread and grow. Each piece of bread had a variety of mould in different colours and textures based on which environment they were placed in.”

Healthy Habits

**TOP 5 Holiday Ideas to Keep the Kids Busy at Home**

**Cooking.** Cook up some yummy treats in the kitchen to eat at an afternoon tea party. Invite your friends over and make it a playdate.

**Puppet Show.** Read your favourite picture book and then get the kids to create a puppet show. The puppets could be made out of paper bags or old socks.

**Gardening.** Get out into the backyard and get planting. Take a trip at the nursery, buy some small pants and seeds and then take them home and get planting.

**Disco.** Put on your dancing shoes and the kids favourite music and have a disco at home.
